

Don't you wanna dive on in, yeah the water feels right  
Dancin' on the edge of the love you're a beautiful sight  
So why're you still standin' there in the half moonlight  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you  
You're battin' those baby blues and, honey i swear  
The way you got me needing you girl, it just ain't fair  
You've given me a little bit yeah, but don't stop there  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you

[Chorus:]

I'm here fallin' for you  
My hearts callin' for you  
I know I never can get enough  
Don't hold back one bit of your love  
Strong and steady for you  
I'm all ready  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you

You're teasin' me with a touch and the whole world shakes  
Keep holdin' that river back and the levee may break  
There's only so much that this ol' boy can take  
Come on, baby, give me a little more you  
Yeah, Come on, baby, give me a little more you

[Chorus]

Come on, baby, give me a little more

Oooh...Give me a little more.. You  
Give me a little more you  
Come on, baby, give me a little more you  
Give me a little more you  
Come on, baby, give me a little more you  
Give me a little more you  
Come on, baby, give me a little more you
