Title: A Night to Remember

download from: <http://www.lyricsdisc.com>

I can't sleep tonight
I won't sleep tomorrow
I'm going deep and tight
I don't need no excuse
I feel mean tonight
One-eyed jacks and aces
Read 'em and weep tonight
I'm gonna let all hell break loose

I want drums like thunder
Gimme guitars that scream
One woman who could shake me
Yeah, be my love machine

I need a love machine
To keep my motor running
Upon the big wide screen
I wanna see it all
Yeah, we'll be lean and mean
We'll be synchronized together
Me and my, love machine
We're gonna do it all
Let me tell you now

I want drums like thunder
Gimme guitars that scream
One woman who can rock me
Yeah, my little love machine

We're gonna make tonight, a night to remember
We're going hard and strong, again and again
Yeah, we're gonna make tonight, a night to remember
Yeah, we're gonna take tonight, right to the end

I need drums like thunder
Gimme guitars that scream
One woman who can rock me
I need a love machine

We gotta make tonight, a night to remember
We're going hard and strong, again and again
Yeah, we're gonna make tonight, a night to remember
Yeah, we're going for a night, a night without end
Ooh, we gotta make tonight, a night to remember
We're going hard and strong, again and again
We're gonna make tonight, a night to remember
Yeah, we're gonna take tonight, right to the end
