Title: A star looks down tonight

download from: <http://www.lyricsdisc.com>

---

I feel her close, i swear it's true  
Yes i feel right in this moment she looks down  
On you

From angels land, her tender hand  
Is caring cause a mother's love will never end

Daddy tell me, what is heaven like  
Where is mummy, i wanna hold her tight

A star looks down tonight, shining down and burning bright  
Though she's gone away where the angels play  
A star looks down tonight, daddy's here and everything's alright  
And our love goes on, with a simple song  
On and on

Daddy say if i should pray  
Could i talk to her and tell her all my secrets

Baby do, if it pleases you  
Let your mother know we love her so completely

Daddy, tell me, what is heaven like  
Where is mummy, i wanna hold her tight

A star looks down tonight, shining down and burning bright  
Though she's gone away where the angels play  
A star looks down tonight, daddy's here and everything's alright  
And our love goes on, with a simple song  
On and on  
Though she's gone away, where the angels play  
A star looks down tonight, daddy's here and everything's alright  
And our love goes on, with a simple song  
On and on
