Title: After dinner spark

download from: <http://www.lyricsdisc.com>

Baby, don't stop thinking 'bout the times we gonna spend
When I got my life in balance, when I found my personal stand
But headache is just comin', tellin' me what I should do
Let's have another party with the guy who's got the clou

Try
Can't give it up

Baby, don't stop thinking 'bout the times we gonna spend
We don't need somebody else, 'cause love will pay the rent
There's no itchin', there's no stitchin', but the headache's gone
Let's have another party with the guy who's got some fun

Try
Can't give it up

He's not at home, you know my girl, he's at the highschool yard
When little schoolgirls longin' for an AFTER DINNER SPARK
But baby, don't stop thinking 'bout the times we're gonna spend
In a six-hours-dreamworld, let me open your hand
