

Got the time when the sun goes up
We'll drink until we drop
My love for hundred brews
That soothes, the foot's been dropped
Not enough for the men on the walk
I drive and drink till I drop

No doubt about it
Can't live without it
No doubt about it
I can't live without it, alcohol
Alcohol

Why it's my destiny?
You get the beer
We get the time
You get the coke, gimme a line

No doubt about it
Can't live without it
No doubt about it
I can't live without it, alcohol

Got the time when the sun goes up
We'll drink until we drop
I drive and drink till I drop

You get the beer
We get the time
You get the coke, gimme a line

No doubt about it
Can't live without it
No doubt about it
I can't live without it
Alcohol
