

Featuring Janet Jackson

Uh...
Uh...
Uh...
What you waiting for?
I know you're watching me
Hey boy, come on and take me now

What you waiting for?
I know you're watching me
Hey boy, come on and take me now

Can I talk to you for a minute
You've been looking all night for your shining star
Well baby here I am, so why you waiting?
Step on over, let me show you how bad you are

Just let me take the lead
All you gotta do is let your mind be free
Lets hit the floor and cause a scene
Get real wet if you know what I mean
What you say baby?

(And she said)
Take me now
I'm hungry for your loving
(And she said)
Show me how
You got me working, honey
(And she said)
Right now
I'm hot just like an oven
(And she said)
So take me now
Boy you make me feel like I gotta dance

I gotta dance, gotta dance baby, I gotta dance...

I feel good to you, you try to hide it
And I can tell by the way you push up close to me
Your body temperature, is arising
Something's going down as far as I can see

Just let me take the lead
All you gotta do is let your mind be free
Lets hit the floor and cause a scene
Get real wet if you know what I mean
What you say baby?

(And she said)
Take me now
I'm hungry for your loving
(And she said)
Show me how
You got me working, honey
(And she said)
Right now
I'm hot just like an oven
(And she said)
So take me now
Boy make me feel like I gotta dance

You know
Don't I
Say don't I make you feel like you gotta dance

Once I get to know ya
(No)
I'm gonna show ya
(No)
That there's no better way
(Yea)
Lets dance the night away
(Yea)
I wanna control ya
(No)
Just wanna hold ya
