

I never thought I'd make it
I can't believe the hell I've been through,
Couldn't see the light at the end of the tunnel
I didn't know what to do.

I've been through the rain,
I've been through the fire,
There was something that I never knew ...

I had an Angel on my shoulder
With a plan for me divine,
Must be an Angel on my shoulder
Who was right there all the time.

This world can be so cold an heartless
It's hard to find your way alone
I used to run so fast - no one could catch me,
I couldn't find the way back home.

Well, I've laughed, I've cried,
I've almost died
But my heart just never knew ...

I had an Angel on my shoulder
With a plan for me divine
Got to be an Angel on my shoulder
Who was right there-
Right there all the time
Everybody needs someone to cling to
With a unchanging love
I finally found a Hand to hold on to-
A shelter to run to.

Now, I see-
He's watching over me

I've got an Angel on my shoulder
With a plan for me divine,
Got to be an Angel on my shoulder
Who was right there-
Right there - right there
All of the time

Got to be an Angel, an Angel, an Angel
Right there all of the time
