

I take you hand in mine  
and journey back in time  
to Avignon  
do you recall the day  
it seems like yesterday  
when love came along  
the little street cafe  
where we would hide away  
just playin' our song  
we strolled along lover's lane  
ignoring showers of rain  
my sweet Madeline

We didn't own a thing  
but we had everything  
my Madeline  
down by the riverside  
we'd sit and watch the tide  
my Madeline  
we used to have such fun  
we used to be as one  
we're still the same  
just picture in your mind  
all those carefree times  
my sweet Madeline

I found my first love  
in Avignon  
my first and last love  
in Avignon  
let's go back and say hello  
to the memories of long ago  
together we'll wander  
through old Avignon

The cafe still remains  
although it's rearranged  
our table's still there  
the same old atmosphere  
is that our song I hear  
love everywhere  
you look the same today  
as you did yesterday  
sun in your hair  
gonna walk through the town  
take a look around  
with my sweet Madeline
