Title: Back In The Day

download from: <http://www.lyricsdisc.com>

Well, punk is dead
And, yeah, you're next
But it seems no one has told you yet
So hardcore
You must be sore
You come on like a major threat

Face - I know you like it hard 'n' straight
Face - Think I'll hang around and wait

Hey, old school - yeah, you were cool
But that was back in the day
Yeah, that was back in the day

Well, take a bow
Harder than thou
You scream "Guilty" like a Judge on high
Well, beat them back
The New Jacks
More than music it's a way of life
