Title: Back in the heart

download from: <http://www.lyricsdisc.com>

Real living is bad living.
ain't forgiving, is living without care.

When you embrace the heart,
your touch plays a different part.
Making me believe,
in a life, without you near me.

When you are so far, you can't crawl back.
Just look inside your heart and see.
All you once left behind,
is now living in a dream.

You will find me, a real me.
Just see me, how I fill your dreams.

Fighting yourself into freedom.
All you need is trust in life.
The worst thing can change.
Like the way you changed for me.

Call it friendship, a helping hand.
If you need someone to lean on,
look back in the heart.
