

I am bored with trying to relate
So another joins my mountain of mistakes
I am one step closer to my damnation
I don't know why the world just can't give me one

[Chorus:]

What I need now is a bad creation
There must be one in this dissemination
What I need now is a bad creation
What I got ain't what I need
And that's my inspiration

It ain't right
To torture me
These plastic creatures now adoring me
I am one step closer to my damnation
I don't know why the world just can't give me one

[Chorus]

Ooh I can feel it coming down
Ooh too familiar is the sound
This won't do
It feels like the end of the world
Is coming...
It's now upon me

[Chorus]

And that's my inspiration
Yeah, that's my inspiration
Yeah, that's my inspiration
Yeah, that's my inspiration
