

Washed out civil freedom  
Spread out city crime  
All that waitin' of believers  
Still a waste of time  
Progress and prosperity  
Will force and empty life  
Watch these people building  
Lumps of fat around their spine

Who will shine on urban people  
When the city lights go out  
When racist idiots actin'  
What the hell they think about?  
Ideas of hate and murder  
Don't let them lead your life  
Will they ever kill this music  
Don't you wanna play it loud

Hypocrites are waiting  
For their saviour dressed in black  
It's not the lot of mankind  
To follow the last track  
The escape to untouched nature  
Not the hope in any god  
Will it ever change this people  
To give this treasure back
