Hey you I'm no fool  
What you got going what you got going  
You've got temptation eyes  
What you got hiding what you got hiding

You've got a way to make me feel  
Like I want to be with you  
Just a little more than hypnotised  
But if I do what I wanna

(Chorus:)  
Get down on my knees  
Praying to the lord that I beat the bullet  
Get down on my knees  
Praying to the lord that I beat the bullet

Oh beat it  
Baby baby baby oh beat it

New York L.A. Frisco  
Boy they got something boy they got something  
Now I've been around this world  
What's it got for me what's it got for me

You got temptation in your eyes  
Now one and one is two  
Just a little more than hypnotised  
But if I do what I wanna

(Chorus)

Baby baby what you got hiding  
What you got going will I beat the bullet  
Oh you got more you got more more  
Than a man could want

(Chorus)

Oh beat it  
Ooh baby I
