

Ice world, eternal night, doors are chained and barred
Toiling slaves die in droves, this life is hard
Theres a Balrog in the woodpile, in the corner, dead canary
Going down to the dungeon to see my Bloody Mary

Bloody Mary
Pretty scary
She knows what to do with the bone I gotta bury!
Bloody Mary
Shes from the surface world!
Bloody Mary
Slutty very. She used to shave her pussy now its getting pretty hairy
Bloody Mary
Shes an American girl!

Torches, chains, sweaty straining flesh
The womb explodes in a meat-maggot mesh
The mutant we made was really beautiful baby. We fingered and felched it, then
sprayed it with rabies
Bloody Mary
Pretty scary
She knows what to do with the bone I gotta bury!
Bloody Mary
Shes from the surface world!
Bloody Mary
Slutty Very I treat my girlfriends even better than Chuck Berry
Bloody Mary
Shes an American girl!

Oh bloody, bloody Mary
Your lips are turgid, your ass is cherry
I'll never, never let you die
The women bleeds but does not die?
When you are immortal the space of many years
Seems just as little as the weight of her tears
That she cried as she waited as the worms they ate her brain
I had her animated but you know its not the same

Bloody Mary
Pretty scary
She knows what to do with the bone I gotta bury!
Bloody Mary
Shes from the surface world!
Bloody Mary
Fuckin' Scary. She knows what to do with the bone I gotta bury
Bloody Mary
Shes an American girl!
Shes an American girl!
Shes an American girl!
?in an Antarctic world? And theres nothing but death there for you
