

You feel desensitized  
You feel dumb  
You wanna word it right  
But you're dumb  
You're still shakin' it  
And not as young  
You know you're blowin' it  
So hold your tongue  
Livin' on foolish notions  
Livin' on aches and pains  
You're pullin' up stakes and leavin'  
You're lookin' for somebody to blame  
There's been an accident  
But no one knows  
Get off the little man  
Holes in your nose  
You're still shakin' it  
The bars are closed  
You know you're blowin' it  
That's how it goes  
Livin' on foolish notions  
Livin' on aches and pains  
You're pullin' up stakes and leavin'  
You're lookin' for somebody to blame  
Livin' on foolish notions  
Livin' on aches and pains  
Lookin' for a place to do it  
Send a message to the brain  
And I don't want what we've been given  
Easy sex and easy livin'  
See what's next and see who's taken  
Don't wanna check to see who's fakin'  
You feel desensitized  
You feel desensitized  
You feel desensitized  
You feel desensitized  
Livin' on foolish notions  
Livin' on aches and pains  
You're pullin' up stakes and leavin'  
You're lookin' for somebody to blame  
Livin' on foolish notions  
Livin' on aches and pains  
Lookin' for a place to do it  
Send a message to the brain  
And I don't want what we've been given  
A foolish notion  
A foolish notion  
A foolish notion
