Title: California nights

download from: <http://www.lyricsdisc.com>

The New York girl the've gone down to California
Don't say they didn't warn you
'Bout spending time in Miami fla
That ain't no place to be anyway
Oh looking for someone in their life
Waiting for love to shine it's light

Ev'rybody's dancing
California nights
Summer in the city
California nights
Boogie through to morning
California nights
California never go away
I'm here to stay

Those vegas chicks have gone and thrown it all away
The're gonna settle down in L.A.
They've heard the stories of hollywood and stars
Sunset boulevard and custom cars
From roulette to roomlet,changing signs
Caesar's to Rainbow lofe unwinds

Ev'rybody's dancing.....
