Title: Can you jam

download from: <http://www.lyricsdisc.com>

Can you jam with all the freaks tonight?
Can you jam? Just rock your body right
Can you jam? Cos I just got to know
Can you jam, can you jam?

If you wanna party here comes the funk
Five got the flava so just give it up [give it up now]
I can keep it coming if you got time
I can keep a swinging but you gotta make up your mind

Bridge:

If you're a freak
If you got the vibe
If you wanna rock tonight

(repeat Chorus)

[check it out now]
Baby gotta check it the funk that I got now
Make you wanna drop when I hit the right spot now
Put 'em all up throw your hands in the air
You know you wanna get down so move it over there [over there girl]
Level with whack drop phatness on a track
So gotta move the body if you wanna party
Gotta get raw the rugged beats that we slam
Baby baby baby now I know you can jam

I'm gettin freaky it's cos you look fine
And baby if you wanna we can spend some time
I can dig deeper, uh, down to the bone
I can sing a sweet love but girl I've got to know

(repeat Bridge and Chorus)

Ah, rewind, rewind, got the funk for your mind
Now there's no contest because we're one of a kind
Keep kicking the fab flows cos we gotta
Try to make you hotter make you move a lotta
Five live in your town you gots to boogie down
Let your legs snap gotta move it all around
Make you move feets gotta clear seats
You need beats
Cos it's a night for the freaks when you
Wanna keep bringing flows that you feelin'
Make you wanna jump up to the ceilin'
Kick back you gotta let you head bump
We'll take you on a ride with the rugged raw funk now
[Uh, break it down Five]
[Uh, yeh, yeh]

Jam (x4)
[Can you jam]

(repeat Chorus until fade)
