---

Ready or not  
You're gonna get a taste of love

So, if you've got a change of heart  
Stop that before you start  
None of this holding back  
I thought you knew that

Chorus:  
You can't be doin' that now  
Stop it right away  
You can't be doin' that now  
'Cause I need a little kindness  
A little, a little tenderness  
A little love somehow

Other loves you've had  
Are just a thing of the past  
All a part of yesterday  
Forever and far away

But, never will I disappear  
My love is gonna stay right here  
So, none of this pulling back  
I thought you knew that

Repeat Chorus

Bridge:  
What's it about, my love, my love  
What's on your mind, now baby love  
Answer my call, I'm callin'  
Don't stop now that I've fallen

Don't let a good thing get away  
We've got forever and a day  
To make the whole thing better  
That's why I'm gonna leave you never

Instrumental

Repeat Chorus and Fade
