

I can play the sweet little girl if you want me to  
Or a just can be the woman of your dreams  
Just say the word there's nothing that I  
Wouldn't do for you  
I can show you things you've never seen

What ever your heart desires  
I mean anything  
Don't go put out this fire  
Set me free  
Baby please

Because I can't be loved  
I can't be loved  
Because I can't be loved  
Bood Bood BeeBood  
Because I can't be loved  
I can't be loved  
Because I can't be loved  
By no one but you  
No one but you

I can dress me up, take me out, take it off again  
Or maybe we should stay right here tonight

What ever your heart desires  
I mean anything  
Don't go put out this fire  
Set me free  
Baby please

Because I can't be loved  
I can't be loved  
Because I can't be loved  
Bood Bood BeeBood  
Because I can't be loved  
I can't be loved  
Because I can't be loved  
By no one but you  
No one but you
