Title: Cato As A Pun

download from: <http://www.lyricsdisc.com>

Cato play with my head I won't know the difference
If we're living in the novelist or statistician
Cato mess with my concepts, my inner vision
Like a strobing light please confuse my every decision

I can't even pretend that you are my friend
What has happened to you and I and don't say that I have changed
Cause man of course I have
Are you far too depressed now even to answer the phone
I guess you just want to shave your head, have a drink and be left alone

Is that too much to ask?
