

Chain me oo free  
(Chain me free)  
Lose the oo key, right now

She was from my home town,  
I'd never met her  
Ditched her boyfriends  
'cause I was better  
She showed me pictures in her car...  
pictures of her Beach Boys  
and Kelly Slater  
Bounced from the party  
'cause the girls all hate her  
She said she wants to see the stars

She's had some fast times  
First times always last times  
Out in the foxglove, I'm in...

Chain me oo free  
(Chain me free)  
or let it all fall  
We can be all, we can be all, I said  
What's in your head?  
Lose the oo key  
or please don't call  
We can be all, we can be all, I said  
She kissed me dead.

She calls me during Loveline  
and gets the machine  
She wants to see me  
but not to be seen  
As if she's got some mystery  
I Missed her life for a few weeks  
before I called her  
Still didn't get it,  
so this is how I stalled her:  
Even though you're seventeen,  
I've got to tell you  
you're too old for me

She's had some fast times  
First times always last times  
Out in the foxglove, was that?..

Chain me oo free  
(Chain me free)  
or let it all fall  
We can be all, we can be all, I said  
What's in your head?  
Lose the oo key  
or please don't call  
We can be all, we can be all, I said  
She kissed me dead.

You're all drugged out and delirious  
Don't close your eyes - are you hearing this?  
I'm about to say something  
that I swore I'd never say  
I gotta get it out before I get away  
I gotta get away before I get it out  
I gotta get away before I get it out  
I gotta get away before I get it out

Yeah

Chain me oo free  
Lose the oo key
