---

Mother said you're not allowed  
To go out on Friday night  
Once you will find your freedom  
In a gang or in a fight

When your dad has beaten you  
Instead of a good night  
You learned from this brutality  
But you never learn what's right

And you must think the foreign man  
Must be worse than you  
Ask yourself what's different  
Between this man and you

Jesus died for human hate  
When tyrants ruled the land  
But Christian parties they all rule  
With the same old upperhand

Hate and greed turn to war  
Between this black and white  
It's like another game of chess  
Where kings do the first strike

The devil laughs it is all my seed  
Hate'n greed'n crime  
Action chainreaction  
That's the game of mine
