---

Chorus:

Girl I get dat cold sweat  
Creepin' up on me  
I ache when you shake it  
Girl I'm just a freak  
Yeah, you set dat cold sweat  
Trippin' on me  
Burnin' with the fever  
Girl you're killing me

Girl you're kinda freaky  
Got something 'bout your smile  
And when you bounce it up and down  
I can't believe my eyes  
I got to give you respect  
Cos you know how to tease  
Keep on walking I'll keep talkin'  
You would not believe

Bridge:

What I would do  
With a girl like you  
Keep your body rockin'  
I ain't gonna stop I just want you  
And you know  
It's shockin' when you rock it  
I'm a sick, sick man cos

(Chorus)

Girl I'm just a freak  
In need of therapy  
I count the ounce in every bounce  
And I just want to feast  
I love the way you work it  
I love the way you grind  
Ya got da funk in every pump  
If you could read my mind  
Bridge

(Chorus)

Down

You're burnin' me down (x3)  
I love the way shake now  
Love the way you break now  
Keep it comin' baby  
I don't wanna hesitate now  
You got me hooked every look makes me freeze  
180 degrees you make me buckle at my knees  
Crazy rump shaker sexy move maker  
Baby bring it on  
Better sooner than later  
I feel a cold sweat creepin' up on me  
We gotta get it on  
Tell me what it's gonna be

(Bridge)

(Chorus until fade)
