---

I never meant to hurt you babe  
I never meant to hurt you babe  
Now's my chance to breathe

Coming down you are too slow  
Not to know about us  
Listen now cause you're too near  
To this maddening crowd without us

I never meant to hurt you babe  
I never meant to hurt you babe  
Now's my chance to breathe

Feeling down before you go  
You should know about us  
Listen now before you hear  
From this maddening crowd about us

I never meant to hurt you babe  
I never meant to hurt you babe  
Now's my chance to breathe
