

Artist: vanguard

Title: Contrary's theory

download from: <http://www.lyricsdisc.com>

I don't believe in justice
Just believe in the sun and in you.
When i said i's very tired
Someone said 'life's beautiful'

But life showed me the contrary
Yeah, life showed me its darkest side
Made me hate all i should love
Painted my eyes in a colour i dislike

I remember the days i won
I thought they were poor days
But now i know (i sadly know)
How, how good they were

Cause everything's going wrong
I can't even play with my head
And it seems the more i live
The less i forget the past

Words of freedom
Cleaning all but me
(they won't find me here)

Yellow hair,
Hope you could hear me
You'd take me from this fear

And this pain

Pain - i hate this word
Pain - i hate this word
Pain - i hate this word
