

We talk every day  
We don't say what's going through our minds  
It's just a way of passing time

I wanna believe I'm all you need  
But the truth is in your eyes  
I need to know what's inside

You're hiding away like you're just too scared to try  
Don't wanna hear a heart break  
But you're slowly breaking mine

[Chorus:]  
Tell me what's going on  
Am I alone?  
Here in this crazy world of love  
Baby something is wrong  
I should have known  
That here in this crazy world of love  
I'd feel lost, don't let go  
'cause I need you by my side, oh  
Here in this crazy world of love

I try and understand what I can  
But I'm losing who you are  
What used to be near seems so far

You're hiding away  
Like you're just too scared to try  
Don't wanna hear a heart break  
But you're slowly breaking mine

[Chorus]

It's heard the not knowing  
Just where we are going  
But in this crazy world is where we belong

I'd feel lost, don't let go  
'cause I need you by my side. Oh

Here in this crazy world of love  
Here in this crazy world of love  
Here in this crazy world of love
