

I know you've heard so many people say  
I've got a different girl in every town  
But there must be somebody telling lies  
And spreading rumours spreading rumours all around

Cause a cuddly toy it's my only joy  
Waiting for the day when I get home  
And what I need is a girl like you  
Just to call call me baby own

So you've got to feel for me baby  
You know you got to feel for me baby  
Oh, you've got to give me your love  
Well I don't pour out my heart like this to everyone  
And not anyone that I meet  
And I know it ain't the wine cause I feel just fine  
Can't you see babe, I'm still on my feet

So you've got to feel for me baby  
You got to feel for me baby  
You know, you've got to feel for me baby  
You've gotta give me your love  
Come on now

So you gotta feel for me baby  
You gotta feel for me baby  
You know, you gotta feel for me baby  
You've got to give me your love  
First thing in the morning is  
Last thing in the night  
Girl you've got to love me  
Treat me so right  
You know you have got to feel, come on  
Told you once told you big times  
You know you've got to feel  
Come on baby, told you big times  
Told you five times  
You know you've got to feel feel  
Come on, come on baby  
You've got to feel my love  
You've got to feel for me baby  
You've got to give me your love

First thing in the morning last thing in the night  
Girl you gotta love me, treat me so right  
Treat me so right, treat me so right  
You've got to give me your love
