Title: Dance again

download from: <http://www.lyricsdisc.com>

When you need someone to take away the emptiness
I hope my heart is enough
When you're searching for someone who will understand
I hope it's me you will trust
Love is a stranger till you let it in
I wanna mend your broken wings

Chorus

Make your heart dance again
Make your heart breathe again
'Till you believe again, oh oh oh
Make your heart dance again
Running free again
Through fields of green again, oh oh oh
Just give me half a chance
To make your heart dance

It's never too late

Don't give it all up so easily
Just 'cause your heart's out of love
Don't you stop dreaming
Don't turn your back and walk away
And know that all is not lost

I'll play you a song only love can sing
'Cause I wanna mend your broken wings

Chorus

Every morning that you wake up
As you gaze into the sky
Your heart will dance just like a butterfly
And nothing else means more to me
And knowing someday you will see
Everything you ever dreamed you'd be

Chorus
