Title: Deathless

download from: <http://www.lyricsdisc.com>

No use to try at all, I can't stop what is going on
We grow old it is strong
We die like flies as its death goes on it's deathless
Take a look and you're breathless
One more step, one more year
Take another look and you're gone forever, you're deathless
Take a look and you're lifeless
One last step, one last year, one last look and you're gone.
