

They said she had
a heart attack
I think the creatures're coming back
And I am fine, 'cause all my love's electrifying
And I come feel like assessable
Wanna be with you
And it's my premonition
I better give my heart a listen
And my preacher say:

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
'Cause all of my demons have withered away

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
'Cause all of my demons have withered away
All of my demons have withered away

He said he shook himself to death
I wanna dance to my last breath
But mistake works shit, only party's hard and I use it
Come feel like assessable
Wanna be with you, wanna be with you
And it's my premonition
I better give my heart a listen
And my preacher say:

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
'Cause all of my demons have withered away

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
'Cause all of my demons have withered away

All of your demons wither away
-Demons wither away
All of your demons wither away
-You'll understand when you come my way
All of your demons wither away
-When you come my way, when you come my way
All of your demons wither away
-Oh no no, they wanna get me down, yeah they wanna get me down
All of your demons wither away
-I better give my heart a listen
Ecstasy comes and they cannot stay
-I better give my heart a listen
-I better give my heart a listen
-I better give my heart a listen
-Come my preacher say all of my d-e-yeah-hey

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
'Cause all of my demons have withered away

-Yeah-hey - yeah-hey - yeah-hey
-All of my - yeah
-Ecstasy - oh
