Title: Desperate generation

---

That's the spirit of time  
Our modern live  
Fast moving pictures under a porous sky  
Fucked up environment  
Your future will be dark  
Sitting in your corner  
You children of despair

Artificial happiness on MDMA  
Hurry up to fix the date  
On the single line  
Wake up for the party  
Dance yourself to death  
You don't wanna leave the corner  
Children of despair

Nobody wants to vote  
For this modern life  
Equal masses moving to  
The sound of steering wheels  
Why should we dance with brother D  
In the corner you will hide  
Children of despair

All dead philosophies  
The experiment had failed  
Values of democracy  
Humanity is sold  
Artificial beauty in an artificial world  
Why should you leave your corner  
Your children of despair

No more smiles on photographs  
The image of a desperate generation
