

Tell me, tell me, tell it to me
Tell me already
If you are loving me
Tell it to me please
Tell me, tell me, tell it to me
Tell me already
If you are loving me
Tell it to me please

Because I am loving you
And you know it well
Because I am dying
From your way of being
And from your love also

Love, forgotten is your love, woman
Love, forgotten in the past, past
Love, forgotten is your love, woman
Love, forgotten in the past, past

Tell me, tell me, tell it to me
Tell me already
If you are loving me
Tell it to me please

Tell me, tell me, tell it to me
Tell me already
If you are loving me
Tell it to me please

Because I am loving you
And you know it well
Because I am dying
From your way of being
And from your love also

Love, forgotten is your love, woman
Love, forgotten in the past, past
Love, forgotten is your love, woman
Love, forgotten in the past, past

Because I am loving you
And you know it well
Because I am dying
From your way of being
And from your love also

Because I am loving you
And you know it well
Because I am dying
From your way of being
And from your love also
