---

Well I've been here before  
Breaking down the door  
To everything I knew  
Breath a count to 10  
I know exactly when and  
What you're gonna do

Well I thought that I could see,  
Into the future foolish me

If you were a book I've read it  
If you were a word I've said it  
If you were a song I've sung it  
For all that you are I've done it  
If you are a dream I've dreamt it  
This letter I write I've sent it  
I know anything and everything about you  
Living here trapped in this D
