

Artist: oblivion

Title: Do me

download from: <http://www.lyricsdisc.com>

I want to believe it, I want it to be true,
Don't want to deceive you in my feelings for you.
I like your walk, I like your talk, I like your company,
And one fine day I'm gonna say just what you mean to me.
I like your style, but I like mine more.
I wonder if I asked you to, would you love me do, and I,
I want you to do me.

I toss and turn every night, I think about you every day,
I wonder if you'll see the light and listen to what I say.
I really don't want to hurt you, just help you be like you should,
I simply want to change your life and change you for good.
I like your style, but I like mine more.
So put on my shirt and tie and low-cut shoes, 'cause I, I
I want you to do me.

Why don't you believe me? It's not all inside my head,
Ever since I met me, I've wanted to get me into bed.
There's really nothing wrong with me, this is not a cry for help,
I just don't want to sleep alone, I want to sleep with myself.
For just one night, I'd like you to be my type.
I want to feel what it's like when I hold me tight, so I, I
I want you to do me.
