Title: Dry land

download from: <http://www.lyricsdisc.com>

Looks like something's coming
Looks like there's gonna be a storm
Looks like everyone's running
Looks like everyone's torn
Hands to blade that daylight is
Hold hold this shaking hands
Swimming from dry land

Looks like everyone's broken
Looks like everyone's lost
Look at all the money we're making
We don't even see what it's costs
Hands to gone that night comes
Hold Hold this shaking hands
Swimming from dry land

Looks like war in the valley
Looks like war in the skyes
Looks like war on the playground
First thing you learn is to lie
Hands to skies for mornings rise
Why can't we start again
Swimming from dry land
Swimming from dry land
Swimming from dry land
