

Artist: lagwagon

Title: E Dagger

download from: <http://www.lyricsdisc.com>

come on e
try to go easy
we can do anything, anything, anything

come on e
we got it covered
we can stop anytime, anytime, anytime

come on e
it's just a party
lets go to party town
then we can party down

come on e
check out my party hat
my name is randall, i wrote you this song

cant you see that all we need is
one night to release this
bound to be the last in all of history?

come on e
raise your glass to the sky
drink to those solid greys,
olden days, whatever

just wanna get radical
don't be a bumner
look at the summer day
the sun is rising once again (yeah)

(girl)
can't we have just one night without
all this self destruction
i just love my husband cant live without him

come on e
we're goin easy
its just a party
time to get gnarly

come on e
try to go easy
my name is randall
its nice to meet you

we are always here to make you laugh
