

You see in the past I had a dream  
A fantasy  
I thought that we would last  
Become a little family  
Then one, two, three, four  
The years were flying by  
They soared  
And it's my gut feeling  
It's not happening for me, so...

Let's end it on this  
Gimme one more kiss  
Let's end it on this  
Let's end it on this

You see it's hard to face  
The addict that's inside of me  
I want to fill my glass up  
With you constantly  
I've been here before  
But I've never ever felt this sure  
And now I know I've been dreaming  
And your actions  
Have inspired me, so...

Let's end it on this  
Give me one more kiss (it's over)  
Let's end it on this  
Let's end it on this (it's over)  
Just one more wish, one last kiss (it's over)  
Let's end it on this  
Let's end it on this

I open up, you ignore me  
You're not the same at all nuh-uh  
And if I turn back  
The pages of time  
I'd rewrite your point of view (uh-huh!)

Washed up on the shore  
Gimme one last chance  
To try some more  
But I'm tired! I'm freezing!  
Let's stop and call it history...

Let's end it on this  
Let's end it on this  
Give me one more kiss (it's over)  
Let's end it on this  
Let's end it on this (it's over)

Let's end it on this, end it on this  
Give me one more kiss (it's over)  
Let's end it on this  
Let's end it on (it's over)

Washed up on the shore  
Gimme one last chance  
To try some more

But let's end it on this  
But let's end it on this (it's over)  
It's over, it's over, it's over  
(fade)
