Eternal DJ who art behind the turntables,
Thy music come, thy sound will be done
In the club as on the dancefloor
For thine is the music and the power and the glory...
Forever and ever!
Eternal DJ!

Eternal DJ!

Our favouritel tracks give us tonight
Guiding us to the bright light, through the dark twilight
And forgive us our temperance, ignorance and arrogance,
As we forgive those who ignore the audience.
Please lead us into paradise
And accept our sacrifice as what we vise.
To find the salvation is our motivation
Of the temptation, saving the creation
Of music and sound
That you found in the underground.
Of music and sound
That you found in the underground.
Eternal DJ!
