Title: Everyone must die

download from: <http://www.lyricsdisc.com>

I'm sick of all your shit
and all your problems too
you think this fucking world
was designed to revolve around you
we all have needs and barriers to break
but your constant fucking bitching
is more than I can take
I tell you it's no problem
but that's a fucking lie
all this fucking shit inside me
I feel like everyone must die
everyone's out to get you
it's just not fair
i've heard it all a million times
and I don't fucking care
we all have needs and barriers to break
but your constant fucking bitching
is more than I can take
I tell you it's no problem
yeah, but's that's a fucking lie
all this fucking hate inside me
I feel like everyone must die
