

I'm you + me and a whole lot more  
our love was someth 'in that could've just soled  
and i'm here  
and i'm near  
you'd see me if you could  
oh I really wish you would  
there's a reason for this song  
it's that

(Chorus)  
Everything I thought about love  
everything I thought about love  
everything I thought about love  
is wrong

You x me is a whole lotta math  
with you I didn't need to take a bath  
and i'm far  
and i'm scarred  
you'd know how I feel  
if you really get the deal  
there's a reason for this song  
it's that

(Chorus 2x)

You and me we can't subtract  
our love was something we turned back  
and i'm scared  
and i'm tarred  
I love you so much  
our love could be a bunch  
there's a reason for this song  
there's a reason for this song  
there's a reason for this song  
it's that

(Chorus 3x)
