VERSE 1

From the moment you looked at me
And ever since you called my name
You've been everything that I've seen
And now I'm caught up in this game

PRE-CHORUS 1

My mind is spinning round and around
There's something special I have found
And every time I close my eyes
All I can think of is you and me
Oh baby can't you see

CHORUS

That everything you do
Everything that you do
Makes me wanna go...
Everything you say
Everything that you say
Makes me wanna go...

VERSE 2

They're trying to build a fence
By saying that this won't last
And they tell me I don't have a chance
That everything moves too fast

PRE-CHORUS 2

But every time I close my eyes
All I can think of is you and me
Oh baby can't you see

CHORUS 2X

PRE-CHORUS 1

BRIDGE

That everything you do
Everything...
Everything you do
Everything that you do
Everything you say
Everything that you say

CHORUS 3X
