

Philip Bailey, Allee Willis & A.Z. Giles

Het gets wild at night  
Gotta sleep all day  
'Cause he's wound so tight  
Blowing his brains away  
He's in the land of the free  
And he wants to be  
Someone they all say will make good  
But what's reality when you're from the hood  
It's evil yea, yea, yea

(Chorus)  
Evil, Evil Roy, who is fooling who  
Don't you know Evil Evil someone  
watching you

Well he got no job so he peddling-fear  
Trying to push so hard  
No way out of here  
It's just the law of the street  
Too much heat

Pressure cooking, gonna explode  
But where you gonna be  
if you lose control  
it's evil yea yea yea

(Chorus)

(Bridge)  
Can't you see that your way  
Is going nowhere fast  
And your time is just running out  
Fighting fire with fire  
It will never pass  
If evil's what your life's about

(Out Chrus)  
When you take never giving  
Hide the pain  
You stop living
