

Double speak  
Well hold it a minute  
You will defend your stake in it  
Please pretend and keep crusading  
It's the only way to make sure that you  
Look foolish and  
History sets precedents  
Unless you change and use your common sense  
Monkey see and monkey do again  
Dump this way of life you must change

If you want to be saved  
It's evolution time  
If you want to be saved  
It's evolution time

Nature below and  
Us above  
Frontiers are gone so lets not be tough  
It's this the downside up style thinking  
We are cannibals in our debauch of food and drink and...

If you want to be saved  
It's evolution time  
If you want to be saved  
It's evolution time

Smell the roses  
No screams, no firehoses  
God's not taking sides  
Mr. Darwin may be right

Ooh the smiling baby will regret  
What papa did to pay the rent  
She'll stand and walk and dump this way of life  
If it needs armed defence

If you want to be saved  
It's evolution time  
If you want to be saved  
It's evolution time  
If you want to be saved yeah saved  
It's evolution time

If you want to be saved  
It's evolution time  
Saved
