

It's incredible. She still looks the same after all these years.  
And her kisses still taste the way that they did back then,  
and I think I forgot her middle name.  
We've done this a thousand times.  
But this time it's different, I think I'm over you.  
I really think I'm over you.  
It's unthinkable. She still drives that same old car.  
Saw her walking into that same old bar.  
And I know she forgot my middle name.  
We've done this a thousand times.  
But this time is different, I think I'm over you.  
I really think I'm over you.  
Nothing's changed except me.
