

They.. they come the fog emits the shadow to go in within
The retrics have been lit
So slip the night so stop erase your nameless faces
Gone i know it's only fight

I can feel this coming close
I can feel this seeking in
Can you feel this moving in
So I say

While you're sleeping
you know I have escaped
While you're sleeping

You KNOW I've been erased

Feel this now
The healing starts, your motion
But you're home alone
You are moving past your home
So fix your thoughts your
You're letting go of all you used know
and now his blood will flow

I can feel this coming close
I can feel this seeking in
Can you feel this moving in
So I say

While you're sleep
YOU know I have escaped
While you're sleeping

You know I've been erased

It's the only way
It's the only way
Feeling far away
Feeling far away

While you're sleeping
YOU know I have escaped
While you're sleeping

You know I've been erased
While you're sleeping

I can feel this seeking in
Can you feel this moving in

I can feel this seeking in
Can you feel this...
