

You've got your good advice
A lack of love
A lot to learn, get hurt
Dirty machine, you've got me clean
Please sir,
Please sir

But everyone shows me faces
But everyone shows me faces
Hey hey hey,
Hey hey hey, yeah
But everyone shows me faces
And everyone shows me faces,
Hey hey hey,
Hey hey hey, yeah

What makes you think
You could get away with this
Just like a dream
Get on the scene, dismissed
I ate your heart
I hope your friends don't mind
You hate to hate a piece of me,
Piece of mind
Piece of mind

[Chorus]

She looks good in everything
She looks good in everything
She looks good in everything
She looks good in everything

[Chorus 2x]

Everything
Everything, yeah
Everything
Everything, yeah
