Title: Fall Into Sleep

download from: <http://www.lyricsdisc.com>

Dreams of earth quakes
Dreams of hurricanes
Dreams of pouring rain
Dreams of tidal waves (to wash us all away)
Dreams of guns blazed
Dreams of fire rage
Dreams of swollen graves
Dreams of hollow pain
All gone

No more fallen
No more enemy
No more casualty
No more dream

Fall into sleep, fall into me
I have a dream
But nobody cares, nobody wants to listen
Fall into sleep, fall into me
Hang onto a dream, that nobody wants
Nobody cares anymore

Dreams of mourning grief
Dreams of disbelief
Dreams of tragedy
Dreams of our disease (to take us all away)
Dreams of fidelity
Dreams of inner peace
Dreams of loyalty
Dreams of unity
All gone
All gone

Fall into sleep, fall into me
I have a dream
But nobody cares, nobody wants to listen
Fall into sleep, fall into me
Hang onto a dream, that nobody wants
Nobody cares anymore

The angels are injured
Fall with broken burning wings
Are we dead inside, are we blind
We cant keep moving forward
Backwards with closed eyes
We're losing sight
All lost inside

No more fallen
No more enemy

Fall into sleep, fall into me,
I have a dream
But nobody cares, nobody wants to listen
Fall into sleep, fall into me,
Hang onto a dream
That nobody wants, nobody cares
Nobody wants, nobody cares anymore

All gone

All gone
All gone
(All gone)
