Title: Falling from Grace

download from: <http://www.lyricsdisc.com>

Falling from grace, falling from grace,
Lord, you have a pretty face.
Take it away and pack it in a suitcase
Then forget about falling from grace.

Don't look at me like that, I never said a word.
Don't ask me where I've been, I'll pretend I never heard.
Don't put it in the paper
