It's your name I hear
inside my head
sweet
like the many tears I shed
It's your name I call
your name read
my prayer, my creed
It's your name I hate
because I love you
still
and I can't live this way
It's your name I keep
The only thing
You can't take away from me
I wanna hold you
so
someday
I'm gonna dive in your eyes
be castaway
I wanna please you
so
please stay
and I will lead you
Faraway, away, away, away,away, away

It's your name I feel
The pact I seal
your name
It's your name I call
under the sky
salty
like the tears I cried
It's your name I hate
because I love you
Still
and I can't live this way
It's your name I keep
The only thing
You can't take away from me
I wanna hold you
so
someday
I'm gonna dive in your eyes
be castaway
I wanna please you
so
please stay
and I will lead you
Faraway, away, away, away,away, away
