

Don't look sexy but it just feels right
Not too dirty and it's not too tight
Why I never threw it out, I'll never know exactly why

Keep it in the drawer beside my bed
It's faded pink now, but it used to be red
Starting to fray at the seams, but I know that you'll still love me
Like you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once more

Oh baby know what your like?
You're like my favorite underwear
It just feels right, you know it
Oh baby know how you feel?
You feel like my favorite underwear
And I'm slipping you on again tonight

Leave you lyin' on the bedroom floor
I leave you hangin' on the bathroom door
Take you for granted, but I'll always know exactly where you are

Lost you once you were hard to find
Got you back you didn't look like mine
Thought we were falling apart but you make me feel so pretty
Like you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once more

Oh baby know what your like?
You're like my favorite underwear
It just feels right, you know it
Oh baby know how you feel?
You feel like my favorite underwear
And I'm slipping you on again tonight
Slipping you on again tonight
Wrap me and roll me, hold me tight
Tear me apart and make me new
Like you always do

Oh baby know what your like?
You're like my favorite underwear
It just feels right, you know it

You feel you're like this is what I want
You feel, you feel

Oh baby know what your like?
You're like my favorite underwear
It just feels right, you know it

You feel you're like this is what I want
You feel, you feel

Slipping you on again tonight
